

# Ericsson - “ICT Professional Foundation”

Below is the information for the 2 month online course called “ICT Professional Foundation”

Ericsson is the driving force behind the Networked Society – a world leader in communications technology and services.

With approximately 115,000 professionals and customers in 180 countries, we combine global scale with technology and services leadership.

The objective of the ICT Professional program is to be the gateway for students to explore valuable information and cutting edge technology that helps in shaping the future of communication.

The duration of this program is 2 months, and can be completed at the participants' time of convenience as the courses will be based online.

Participants do not have to be in Ericsson office during the course, they can log in at any place they are, as long as they have an internet connection and a computer.

They may log in at any time of day. Once you log out, the assessment answers will be saved until the next login. The course will be open for two months – the participant is responsible of organizing his/her time to complete it within this time frame.

The main constraints are:

- The ICT Professional program to be completed no later than 2 months
- Achieve the passing score for the program
- **4<sup>th</sup> year students only** (entering the final year of BSc, graduating summer 2016)
- Business Acumen (5x35 min + Assessment) – General Ericsson
- Introduction to OSS BSS (30 min + Assessment) – OSS/BSS
- EPC Solution Overview (40 min + Assessment) – Packet Core
- Ericsson IP Academy Curricula (50 hours + Assessment) – IP
- TV & Media Overview – (TBC – c4 hours+ assessment)

The below disciplines are sought after:

- Electronic/Electrical Engineering
- Mechatronics Engineering
- Computer Science
- IT& Engineering degrees with a focus on Telecommunications

We are seeking the top 20 males and females from all the relevant disciplines available.

Some positives on the ICT Certification

- Introduction on Ericsson and ICT which would be imperative for future job aspirations within Ericsson or other ICT giants
- Free (cost is borne by Ericsson) access to courses only available to internal Ericsson employees. Otherwise, not accessible externally
- Transferrable knowledge for future Ericsson role, or other desirable company within ICT industry
- Ericsson certification attractive prospect when added to list of credentials
- Upon receiving certificates – opportunity to network with well-established Ericsson employees and receive exposure within Ericsson
- In-depth knowledge on current industry practices

Record of performance in Ericsson database for future opportunities

**If you would like to take part in course send us ([ayse.kavas@deu.edu.tr](mailto:ayse.kavas@deu.edu.tr)) your motivation letter which consist of your background, projects you've done and intention until the July 15<sup>th</sup>.**

Please do get in touch if anything is unclear.
